Special Notes for this week:

We had such a wonderful field trip on Friday. Give your student an extra hug for all the compliments I received on their good behavior. They were very curious and attentive during the boat ride, and spotted so many species of birds. We only stayed a short time at the beach, but had so much fun finding the shells on our shell hunt list. The shell museum staff was very pleased to have such an intelligent group.

We have a shortened week, but will still have the Spelling Pre-Test on Wednesday. We will be seeing a short movie on Operation Christmas Child. Hopefully this will help the students understand what it is all about. Don't forget to send in those small gifts for the two children we are sending boxes to.

What we are learning this week:

Third Grade

Math: Lessons 54 - 57

Reading: "Paddle to the Sea"

Fourth Grade

Math: Lessons 53 - 56

Reading: "Mixed up Files of Basil E. Frankweiler"

Both

Bible: Daniel

Spelling: Unit 12

Science: Living Organisms
